AASU Soccer Camp Philosophy

The Armstrong Atlantic summer camp program stresses individual technical, tactical, and physical development in an excellent learning environment. Players will improve fundamental skills while being challenged to learn more advanced aspects of the game.

Campers will be challenged while receiving positive reinforcement during various activities related to the sport of soccer. Emphasis will be on the positive aspects of the campers performance to ensure that every participant gets a return for their efforts.

Sample Activities:

- Fitness Activities to improve flexibility, agility, quickness, strength, power and footwork.
- Technical Training to improve first touch, the preparation of the ball, dribbling, shooting and passing.
- 1v1 play with emphasis on technique and decision making under pressure.
- Group play to help the development of group tactics in attacking in defending.
- Small sides and large sided games to give players the opportunity to put what they learned into practice.
